Floating Series Bronze Plaques

Pullman On The Park, Melbourne, Victoria October 2017

Flora Designs

Gum Leaf

With a range of floral designs from native Australian flowers such as the Sturt Desert Pea to traditional and elegant Roses there is a design to suit any need. These designs can be used to create stunning native gardens or rejuvenate existing memorial sections.

Designer Series

A picture can say a thousand words.

Lifestyle Series

Everlon believes memorialisation is more than a name and date upon a plaque.

Our new Lifestyle Series add variety and freshness to the everyday plaque designs. The lifestyle series is vast and encompasses background images reflecting the arts, religion, sports, adventures, landscapes, gourmet foods and wines. When designing the plaque, the family simply chooses one of Everlon's preselected background images that best reflected their loved ones lifestyle with the appropriate wording to be placed over the images. A loved one no longer has to be remembered by just a few lines of text, their memorial can be a true reflection of the individual thanks to the Everlon Bronze Lifestyle Series.
