Urns, Keepsakes and New Memorialisation For People and Pets Exclusive Designs Eco Conscious

### More Than Just a Plaque Manufacturer

- We are an Australian manufacturer that employee's people from the local community.
- A proud Australian manufacturer that is committed to protect and preserve the environment through sustainable manufacturing practices.

# Plaque Recycling

- Closed loop plaque recycling program.
- We arrange for plaques to be collected.
- Customer receives a credit based on the weight.
- Nothing goes to land fill.

# Plaque Refurbishing

- Our plaques are of the highest quality.
- Not every plaque has to be a new one.
- We bring old and worn plaques back to life.

### Renewable Energy and Usage Reduction

- We are focused on using renewable energy and reducing the amount of energy used in our manufacturing processes.
- 35% to 40% reduction in gas usage.
- 15% to 20% reduction in electricity usage.

## Reuse and Recycling of Metal

- Our Bronze comes from secondary markets.
- Through reusing and recycling we have converted our manufacturing scrap bronze back into 60 tonne of bronze ingots in the past 2 years.

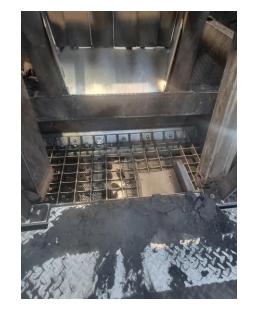

#### Sand Reclaimation

- Sand is one of the key raw materials in our casting process.
- The quality of the sand plays a major part in the quality of the casting.
- We reclaim and reuse over 95% of our sand avoiding land fill.

Our commitment to continuously improve the environmental performance of our operations and services is another reason why Arrow Bronze is the supplier of choice.

Thank you.
